

Appendix C: (Corresponds to Section 7  
on the ARP Monitoring Study of Surface  
Water Source CWSs)

Sub-Appendix C-1: EFED generated 1995-1997 annual mean atrazine concentration cumulative exceedence curves (based upon data from the ARP Monitoring Study on surface water source CWSs). The percentiles are based on the percentages of CWSs with equal or lesser concentrations.

0-100% CWS Cum. Exceed. Curve (n=175)

0-100% CWS Cum. Exceed. Curve (n=175)

Sub-Appendix C-2: EFED generated 1995-1997 annual maximum atrazine concentration cumulative exceedence curves (based upon data from the ARP Monitoring Study on surface water source CWSs). The percentiles are based on the percentages of CWSs with equal or lesser concentrations.
